

Curriculum Vitae

MD. Ehsanul Haque

I am Md. Ehsanul Haque, a frontend web developer. I have skills in HTML5, CSS3, Javascript & JQuery programming languages. So far I have worked on a few projects as practice. By the grace of Allah I can build websites by direct coding without using any website builder CMS, so such websites load very fast which is comfortable for the user. Also, the website is not built with the conventional website builder CMS and page builder, the website does not look traditional, it has a unique and modern design. Every website I build is coded SEO friendly and responsive, moreover, I do on page SEO of each website. If photo editing is required for building a website, then I do photo editing as well. I create multipage websites, landing pages, one page websites etc.
